PROFESSIONAL SUMMARY

Senior Backend Engineer with 8+ years building scalable, distributed systems and APIs for high-traffic SaaS and fintech products. Deep expertise in Node.js, TypeScript, and Python, with a strong track record designing microservices, optimizing PostgreSQL at scale, and shipping reliable cloud infrastructure on AWS. Passionate about clean architecture, developer experience, and mentoring.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Go, SQL

Backend: Node.js, Express, NestJS, GraphQL, REST APIs, Microservices, Django

Data: PostgreSQL, MongoDB, Redis, Apache Kafka, Elasticsearch

Cloud & DevOps: AWS (EC2, Lambda, S3, RDS, ECS), Docker, Kubernetes, Terraform, CI/CD, GitHub Actions

WORK EXPERIENCE

Senior Backend Engineer — Stripe

San Francisco, CA | Mar 2021 – Present

- Led design of a payments reconciliation microservice handling 12M+ daily transactions with 99.99% uptime.
- Cut p95 API latency 40% by redesigning PostgreSQL indexes and introducing Redis caching layers.
- Built event-driven pipelines on Kafka to sync ledger data across 6 downstream services.
- Mentored 4 engineers and established the team's API design and code-review standards.

Backend Engineer — Shopify

Remote | Jun 2018 – Feb 2021

- Developed GraphQL and REST APIs powering merchant-facing analytics used by 500K+ stores.
- Migrated a monolith module to containerized microservices on Kubernetes, improving deploy frequency 3x.
- Implemented rate limiting and idempotency for public APIs, reducing duplicate-charge incidents to near zero.

Software Developer — Freshworks

Chennai, India | Jul 2016 – May 2018

- Built background job processing with Python and Celery for a CRM ingesting millions of records daily.
- Added full-text search with Elasticsearch, improving query relevance and speed for support agents.

EDUCATION

B.S. in Computer Science — University of California, Berkeley | 2012 – 2016

CERTIFICATIONS

AWS Certified Solutions Architect – Associate | Certified Kubernetes Application Developer (CKAD)
